Presentations about mod_zeroconf

1. CodeCon 2004 -- February 20, 2004

CodeCon is a small conference held annually in San Francisco. The conference program consists of presentations about projects held by active developers; every presentation must be about working code.

2. Apachecon 2003 -- November 18, 2003

Apachecon is the leading conference on all things Apache. The mod_zeroconf presentation had an introduction to Zero Configuration Networking as well as a discussion of the mod_zeroconf architecture and a demonstration of the working module. Slides are on line as well as the paper.
